

# Like Night and Day.

See and feel the difference  
between bright white Insite® Reveal®  
and other standard foam boards

- New bright white surface liner delivers crisper colors, sharper contrast and optimal color fidelity.
- Gilman's proprietary Reveal® foam assures a flatter and more warp-resistant board.
- Insite Reveal is absolutely the most rigid foam board in its class.
- Finer foam cells assure the smoothest printing surface, plus clean cutting and converting.
- Faster mounting speeds due to reduced adhesive absorption.
- Colorfast dyes provide fade resistance for extended shelf life and color integrity.
